

Welcome

This is the Chaos-West Token of the **SHA2017** camp

For more Information, visit <https://git.io/cwtkn>

Safety Advices

The polarity of the battery is important!  
“+” of the holder must contact “+” of battery

Do not have the CR2032 coin cell inserted  
when the Li-Ion Charging IC is populated  
and USB is used. Only use LIR2032 or  
other single Li-Ion cells (3.6 V) for charging
